

The Official Camp Kodiak Packing List

Please remember when packing that laundry facilities are difficult to locate in the Alaskan wilderness, so be sure to take enough clothes to keep dry and warm. Alaskan summer weather can range between warm and sunny to cold and wet! Rain gear is essential! Fleece, polypropylene, quick dry, and other synthetic materials are excellent in the outdoors; cotton is NOT, as it loses its insulating ability when wet. Avoid cotton sweatshirts and jeans if possible, in favor of fleece and synthetics. Except for the “Optional” category, consider this list essential equipment! It is a great idea to put your name on all your equipment.

Camping Equipment

- Sleeping bag & sleeping pad
- Medium size backpack
